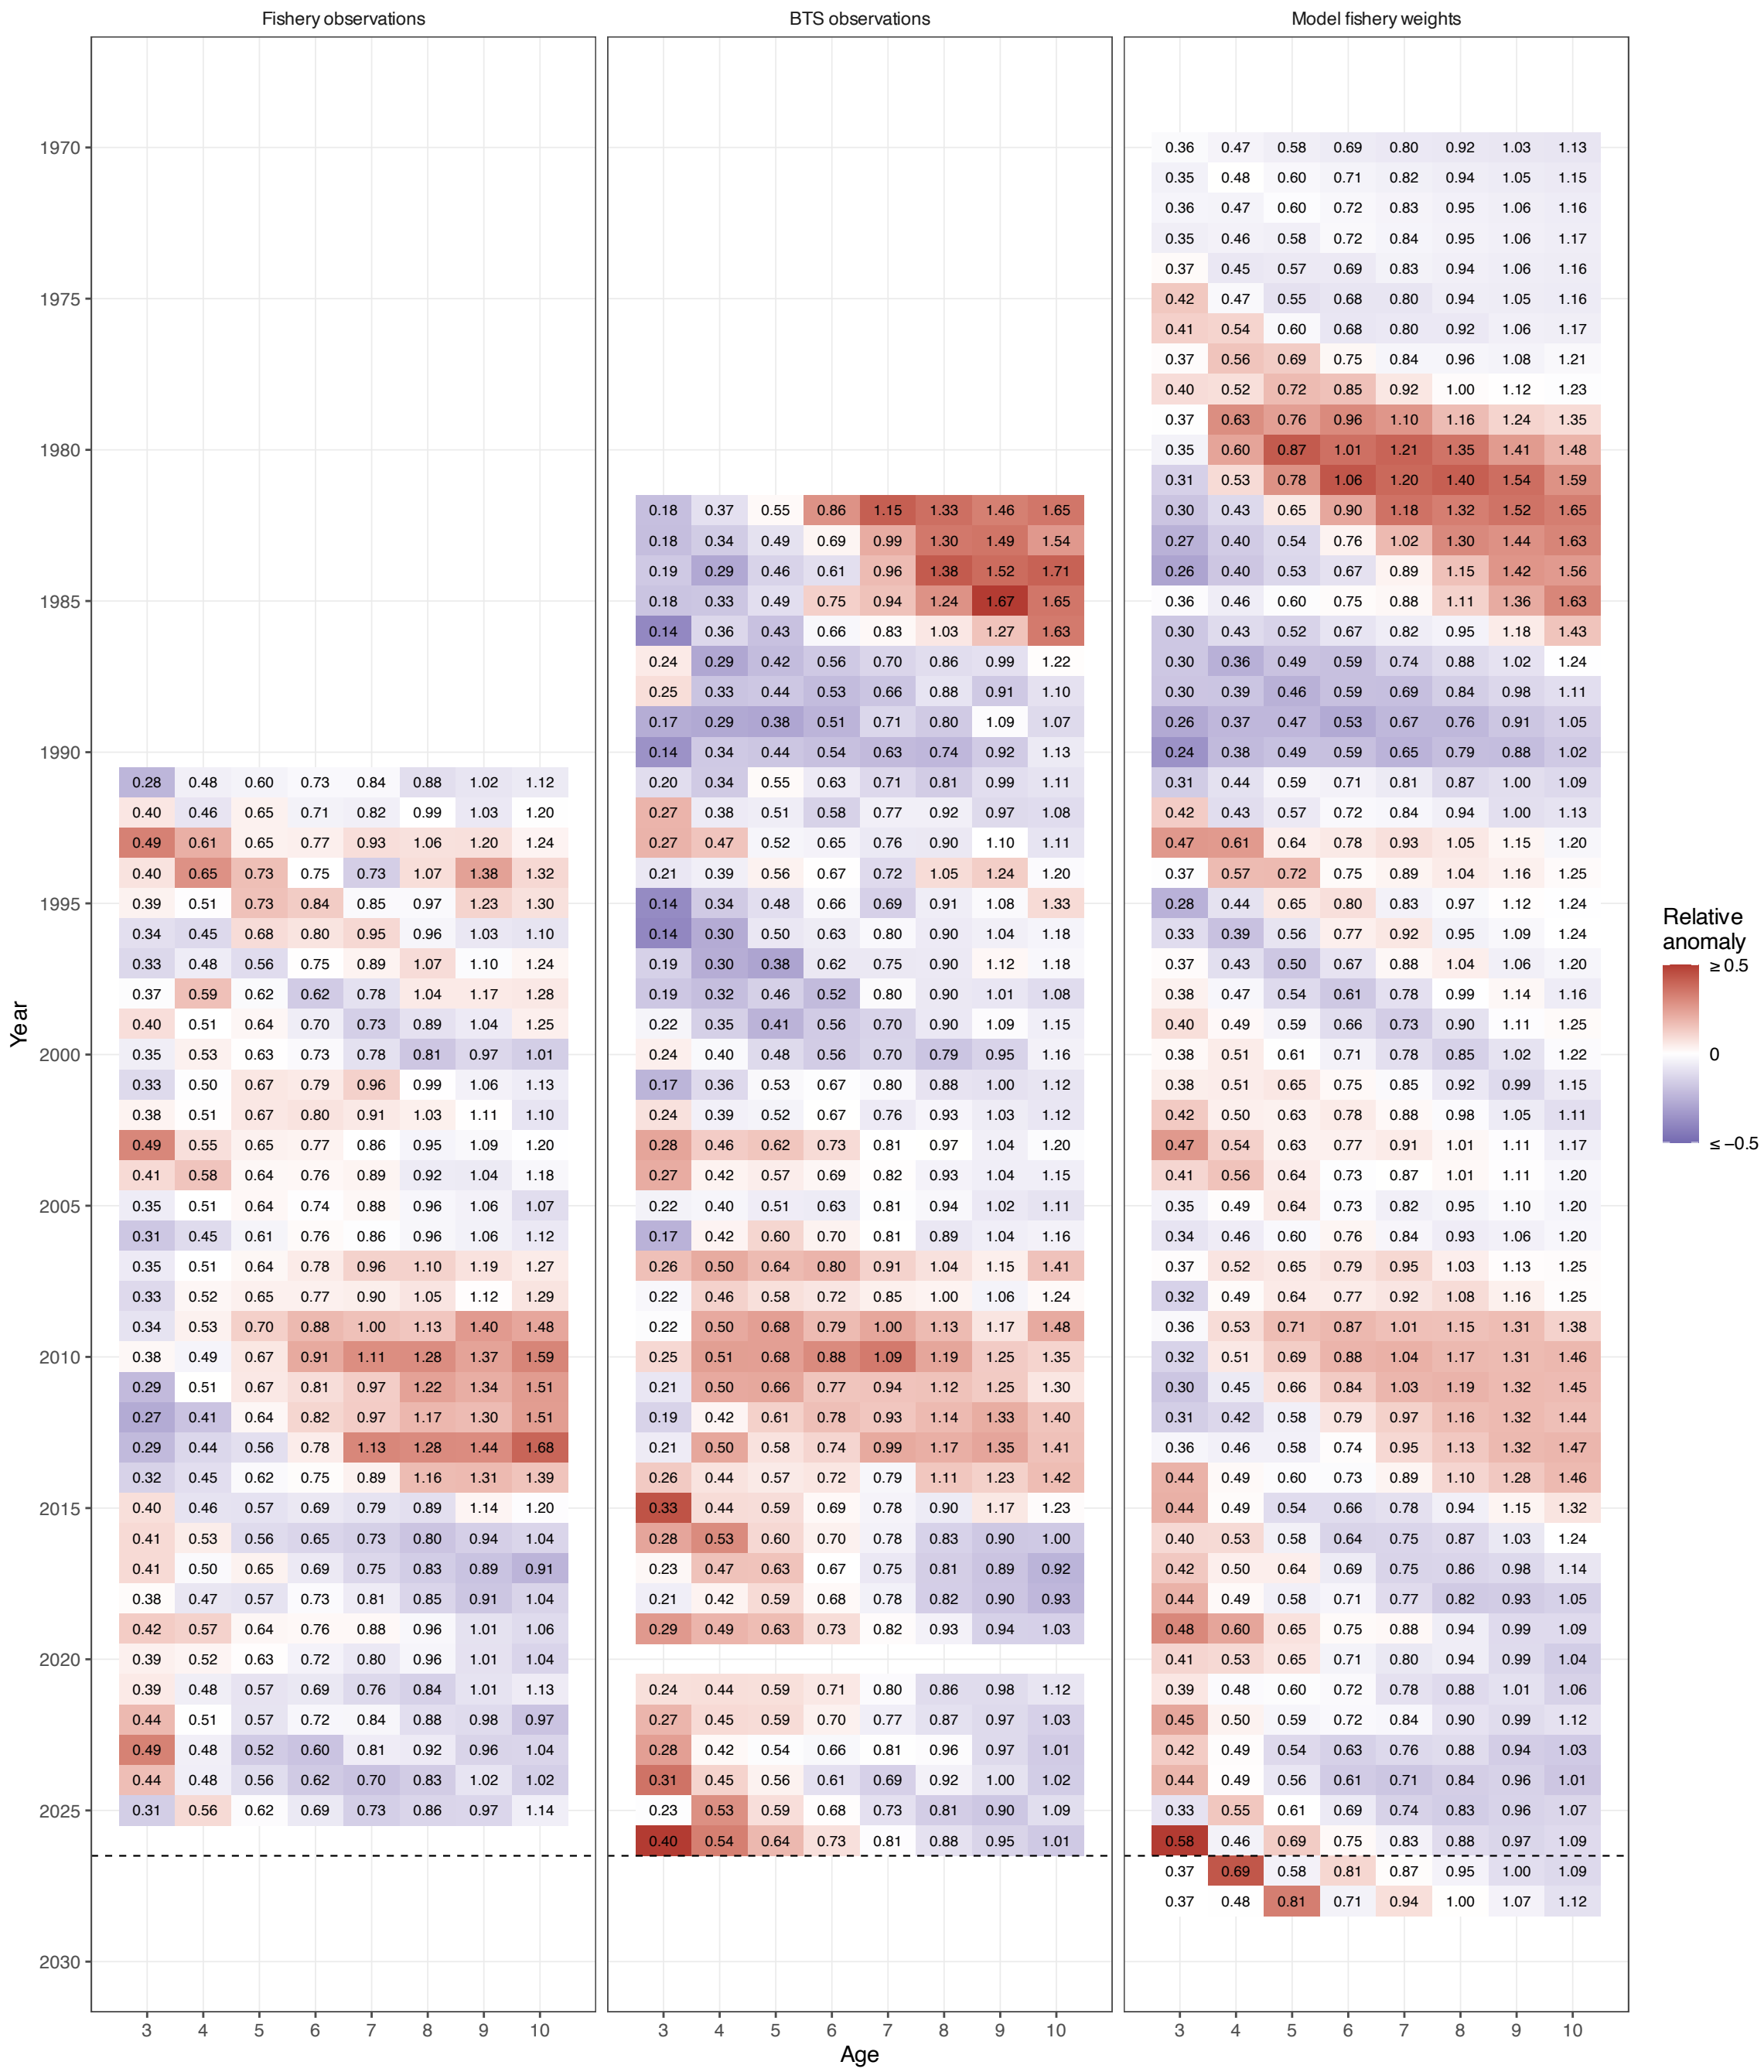
Weight at age: BTS 2025-2026 observation CVs doubled

Cell labels: kg per fish. Dashed line separates 2027–2028 predictions from years through 2026.



Saved WtAgeRE joint fit: bts_2025_2026_double_cv_20261108 / attempt-001.
Fishery observations end in 2025; BTS observations end in 2026. Model fishery weights include estimates without observations.
Anomalies are relative to the baseline panel-specific age means through 2026; colors saturate at ±50%. Ages 3–10 shown.
